

PEDIATRICS and OCULAR MOTILITY

The Pediatric Ophthalmology and Ocular Motility (Strabismus) service at New England Eye Center is dedicated to providing the highest quality care for visual and ocular problems in children as well as adults with eye movement disorders. We specialize in the evaluation and treatment of a full complement of diagnoses including:

- Refractive error (nearsightedness, farsightedness, and astigmatism)
- Amblyopia or “lazy eye”
- Strabismus (crossed /wandering eyes)
- Double vision
- 3-D vision and depth perception
- Nystagmus
- Eye infections or inflammations
- Eye injuries
- Genetic eye problems
- Pediatric cataracts
- Pediatric retinal disorders
- Adult thyroid eye disorders
- Neuro-ophthalmic disorders

Services include:

- Comprehensive eye examinations
- Standard and complex eyeglass prescriptions
- Eye muscle (Strabismus) surgery in children and adults
- Vision therapy
- Pediatric contact lenses
- Visual electrophysiology (VEP, ERG)
- Adult & pediatric neuro-ophthalmology

Your physician has asked that you be seen by the following doctor:
